ORE ON CITY SEPI 10
TO THE BUTTOR OF THE OREGONIAN
I like the ring of the metal that composes the new republican platform of Washington territor; it is the first indication that there is genuine life left in the republican party that I have witnessed since the defeat of Biane
Very different from its stirring notes of aggres siveness are the publications of the republican managers of the Union League et ib of New York which in reply to the wild tyranical and one sided statement of Bowen of the Independent as published in the dispatches of yesterday whimpers. If Bowen goas on in this way he will ruin the party in this ettly. This wail puts the party on the defensive. If gives us the speciacle of a great and erewhile triumphant organization that grew into gower as the defender of liberty and inalien able rights exhibiting itself in a petitioning attitude, making no effort to refute the derison; craft which it knows is hombing but storally siying to this new born bugbear in its path. Droj ye reliab or you'll hart us.
